

Autumn Meeting of the Rhineland QIN

Cologne, September 29th 2016

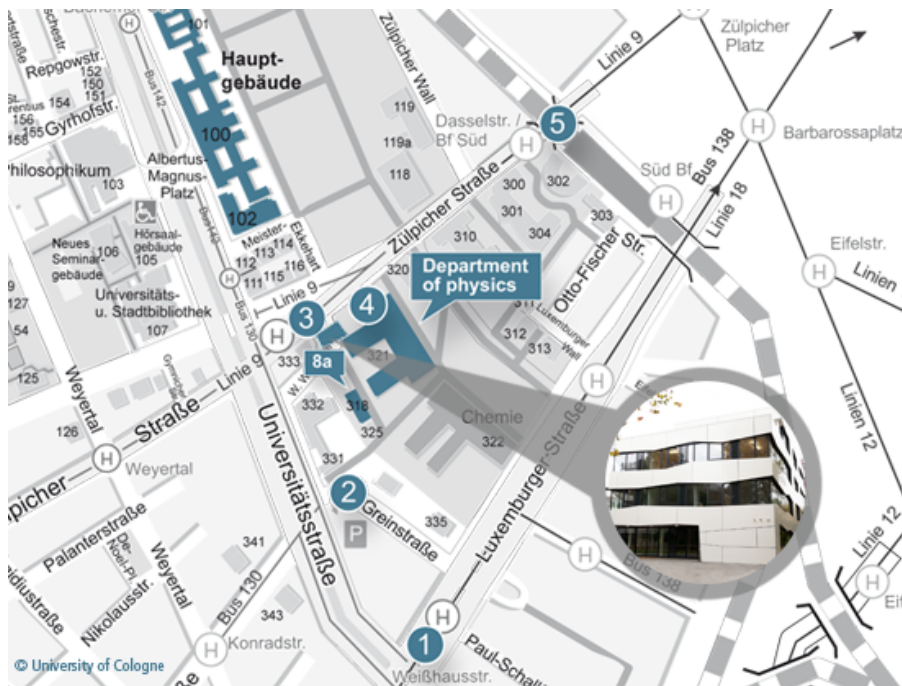

Timetable

10.30am - 11.30am	Registration
11.30am - 11.45am	Greeting
11.45am - 12.15	Talk Duesseldorf: Measurement-device-independent randomness generation with arbitrary quantum states <i>Felix Bischof</i>
12.30 - 1.30pm	Lunch
1.30pm - 2.00pm	Talk Cologne: Convex reconstruction techniques for phase retrieval <i>Richard Kueng</i>
2.15pm - 2.45pm	Talk Aachen: Normal metal quasiparticle traps for superconducting qubits <i>Roman Riwar</i>
3.00pm - 3.30pm	Coffee Break
3.30pm - 4.00pm	Talk Siegen: Quantum Steering and Joint Measurability <i>Roope Uola</i>
evening	Dinner (optional, spontaneously organized)

Venue

Institute for Theoretical Physics
Zülpicher Str. 77a
Room 0.03

Tel: (+49) 221 470 1040

2: [parking lot:](#)

please send an email (name, license plate number) to mboevska@thp.uni-koeln.de to get a car park ticket

3: [local public transport station:](#) Universität

5: [regional public transport station:](#) Köln Süd
